## Main Tech Specs

**≥6500 nits**  
High brightness

**IP65**  
Weatherproof

**Front & rear**  
Convenient service

**14 bit**  
High gray scale

**0.01mm**  
Perfect flatness

**72mm**  
Thin cabinet

**25 KG**  
Light cabinet

**3840 Hz**  
High refresh rate

## A3 outdoor billboard with redesigned cabinet

A3 is a brand-new outdoor billboard with completely redesigned cabinet and module, 100% made of die-casting aluminium cabinet, featuring excellent thermal management. Optimized circuit design, saving electricity up to 50%

comparing to traditional display. A3 featuring a extremely easy-to-use architecture, with module and control box are accessible both from front and rear.

# A3

## Redesigned cabinet for outdoor billboard

**72mm**  
cabinet thickness

**25kg**  
per cabinet

## Compact structure, lightweight and thin

960mm by 960mm cabinet, weighs only 25kg, and measure only 72mm thick, making it much easier to transport and install.

**IP65**  
Ingress protection

## High ingress protection

As an product designed for out-of-home digital billboard, A3 comes with an ingress protection level rating up to 68, it can work properly regardless of demanding environments.

## Excellent thermal management

100% made of die-casting aluminium, redesigned frame cabinet structure, high strength and excellent thermal management.

## Seamless curve visual effect

Available in seamless curve cabinet, specifically designed for walls with curves to deliver stunning and immersive visual experience.

## 90° curve beveling cabinet

A3 cabinet is also available in 90° curve beveling cabinet with which to create more creative display possibilities.

## Precise and easy-to-use positioning pin and lock

Both A3 module and cabinet are equipped with rotation lock and positioning pins, it helps to easily fix and stabilize module and cabinet without even a trying, fast and efficient.

## Optimized circuit, energy efficient

A3 comes with Kensun's latest generation of circuit design, saving electricity up to 50% comparing to traditional LED display.

Saving energy up to  
**50%**

## Front and rear access design

Both module and power box are accessible from front and rear, it only takes four steps to disassemble or assemble a module, making service much effortless.

**6500 nits**  
Brightness

**3840 Hz**  
Refresh rate

## True-to-life image quality

With brightness up to 6500 nits and refresh rate up to 3840Hz, A3 delivers true-to life image reproduction with every pixel performing perfectly and as intended.

## Flexible installation

Thanks to the user-friendly cabinet design, A3 display can be either supported on a installation structure, fixed on wall with or without maintenance access, making application more flexible.

# Tech Specs

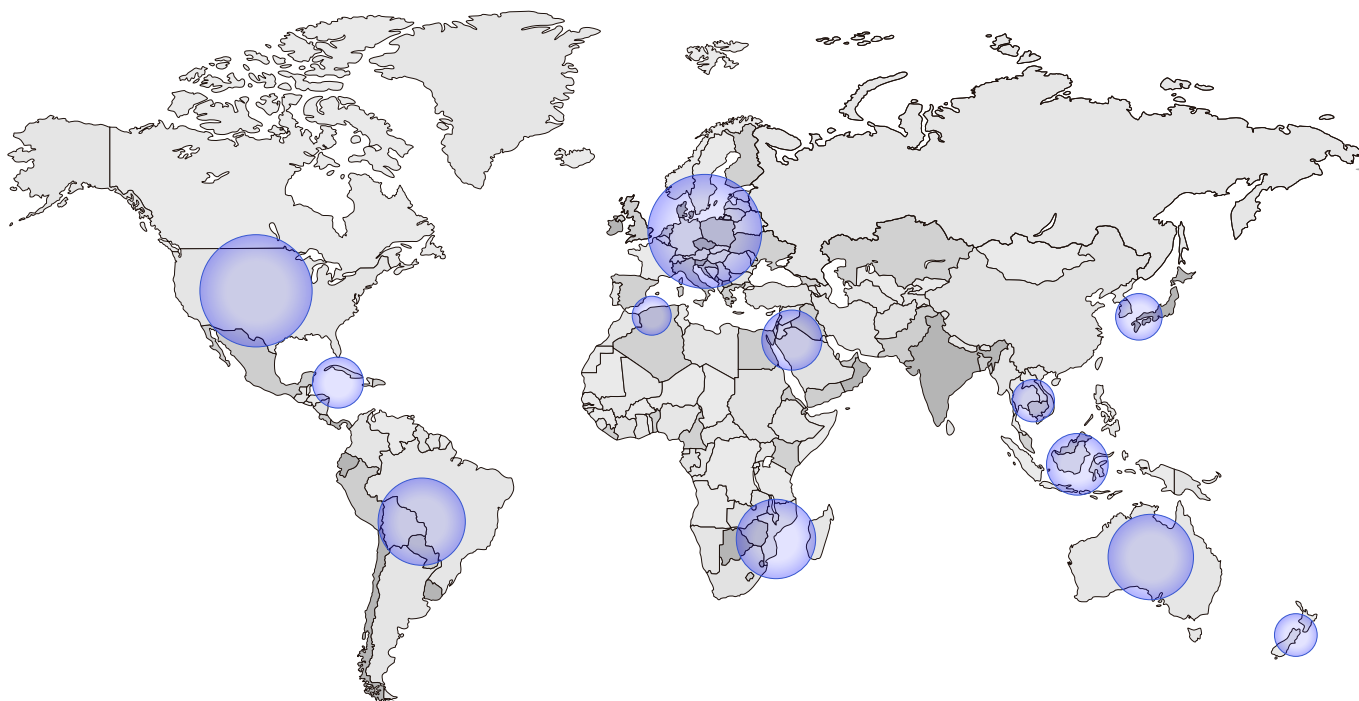

Specs listed below are test results from Kensun's laboratory based on A3 standard LED display, we may modify it without prior notification, you are welcome to inquiry us for more customized solutions.
